Part 2. Rubbish Survey

This section of the form is optional. The collection of this information enables us to access valuable statistical data from activities conducted nationally. Please read the instructions below before starting the survey.

- This survey requires you to identify and count a proportion of the rubbish collected at your site and record the results.
- To make it easier, complete the Rubbish Survey as rubbish is being collected at your Clean Up event by working in teams of two.
- Count the rubbish collected in every fifth bag. Stop when you have surveyed 6 bags. If you collect less than 5 bags of rubbish, survey the contents of just 1 bag.
- Please indicate for each item collected whether it is recyclable in your area. This will help us determine the proportion of recyclables collected.
- Thank you for taking the time to complete this report. Your feedback helps ensure the ongoing success of the campaign

Rubbish Type	No. of items (tally mark)	Total	Are these recyclable in your area?		
			Yes	No	Unsure
EXAMPLE ▼					
chips & confectionary	IIII	4		✓
