

## Notes for Teachers

### To complement Clean Up the Murrumbidgee River / An Interactive Recycling Game for Primary School Students in ACT

---

#### The game

The game is a fun, interactive and curriculum-based educational resource in two stages. There are four versions of the game: one for Kindergarten; Years 1 and 2; Years 3 and 4; and Years 5 and 6. Each version of the game is contained on its own URL.

Section 1 involves the student choosing a character and a vessel and navigating the Murrumbidgee River, picking up rubbish and avoiding wildlife. As the student travels up the river, they will pass checkpoints. At each checkpoint, an information screen will pop up containing educational content. The student reads the information then continues. At the end of the river course, a quiz is generated based upon the information that the student has read.

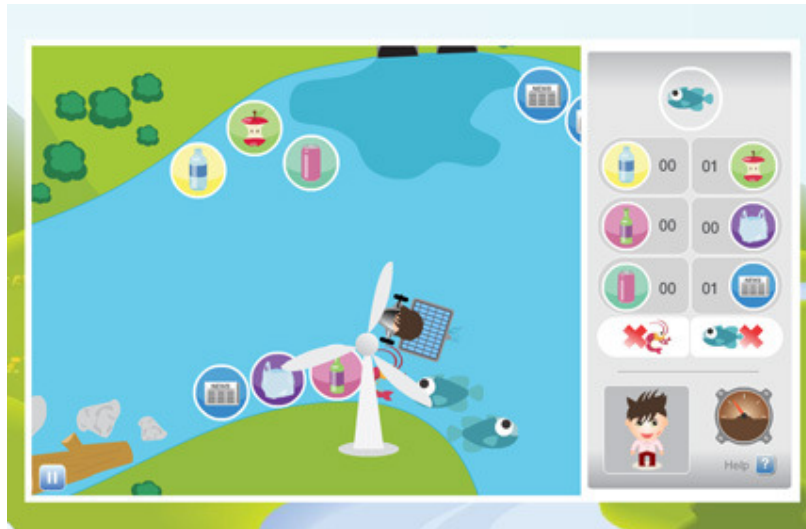

The questions are a mixture of multiple choice and true/false answers. The student must get each answer right before proceeding. At the end of the quiz, the student can see their score for section 1 of the game.

Section 2 zooms into the recycling plant adjacent to the river. The student sorts the rubbish that they collected into the appropriate bin for recycling. Information periodically pops up. At the end of this section, there is another quiz, after which the student can see their scores for both sections of the game, as well as their overall score.

#### Clean Up Australia Ltd

ABN 93 003 884 991 PO Box R725, Royal Exchange NSW 1225 Australia

**tel:** 1800 CUA DAY **email:** [cleanup@cleanup.org.au](mailto:cleanup@cleanup.org.au) **web:** [www.cleanup.org.au](http://www.cleanup.org.au)

**Suggested vocabulary to introduce before using the program**

Kindergarten

recycle; true; false

Year 1 and 2

Aboriginal Dreaming; landfill; recycle; reuse; environment

Year 3 and 4

citrus; cereal; hollows; refusing; reusing; recycling; stormwater drains; landfill

Year 5 and 6

tributary; stormwater drains; deteriorates; water management; river corridor; endangered
